

NEW YORK RECOVERY HOUSING FINANCIAL LANDSCAPE SURVEY

Researchers at the University of Kentucky, Kentucky Injury Prevention and Research Center and the Fletcher Group, in collaboration with the New York State Alliance of Recovery Residences (NYSARR), are interested in learning more about how recovery residences in New York are funded and to identify any potential resource needs or funding gaps. This information will help us to better and more effectively determine the funding and other resource needs to support the recovery housing community statewide. The survey should take no more than 20 minutes to complete.

YOU MAY BE ELIGIBLE TO PARTICIPATE IF YOU:

- are a recovery house owner/operator of a recovery house in New York.

PARTICIPANTS WILL BE OFFERED:

- You may not benefit personally from being in this study, but your answers could help us understand the financial needs recovery houses have.
